Specifications

|                       |                    |
|-----------------------|--------------------|
| Material              | Carbon Steel       |
| Finish                | Plain              |
| Thread Size           | 16                 |
| Thread Direction      | Right Hand         |
| Fastener Length       | 3 in               |
| Head Width            | 9/16 in            |
| Head Height           | 15/64 in           |
| Tensile Strength      | 125,000 psi        |
| Rockwell Hardness     | C35                |
| System of Measurement | Inch               |
| Thread Style          | Partially Threaded |
| Type                  | Medium Strength    |
| Thread Type           | UNC (Coarse)       |
| Weight                | 0.1 KG             |
| Weight                | 0.1 KG             |
